## Extended Warranty Program Features & Options

AMETEK Programmable Power Warranty Plans cover all required parts and labor to return your instruments to their warranted specifications with the reliability only AMETEK trained technicians can provide. Some options available to you for an Extended Warranty plan:

- Add an extended warranty plan at the time of your original purchase, saving you up to 70 percent compared to the cost of one repair.
- Select optional Priority Service, ensuring the fastest repair turnaround time (typically 12 days or less).
- Count on the use of genuine AMETEK Programmable Power parts for repairs.
- Rely on our unmatched ability to fully service the equipment at 3 service sites globally.

## Requesting an Extended Warranty after ownership is simple

To request an extended warranty prior to the expiration of your unit's warranty\* simply visit the link: <http://www.programmablepower.com/support/extw.htm>

From this link, you will be taken to the Extended Warranty landing page. Complete a few basic questions about your programmable power supply. Add attachments, if relevant, and click "Submit."

## Large Installed Base Solution

If you are one of the many AMETEK customers with a significant installed base of AMETEK power products, you may wish to consider investigating the benefits of a Service Level Agreement (SLA). AMETEK SLA's can be tailored to your company's specific needs.

Visit us online to learn more about our other service products, such as an SLA, at: <http://www.programmablepower.com/support/support.htm>
